Arts & Humanities

Association for Information Science and Technology: History Fund Research Award Grant. The ASIS&T History Fund Research Award will be presented for the best research proposal submitted by April 30, 2014 on topics relevant to the history of information science and technology. Due: 04/30/2014. Link: http://www.asis.org/awards/history_fund_awards.html

Tribeca Film Institute (TFI): New Media Fund. The TFI New Media Fund provides funding and support to non-fiction, social issue media projects which go beyond traditional screens - integrating film with content across media platforms, from video games, apps, social networks, and Web. Due: 05/05/2014. Link: https://tribecafilminstitute.org/blog/detail/submissions_open_for_tfi_new_media_fund

Education, Health, Social Science, & Service

National Institute of Justice/Department of Justice: Research and Evaluation on Firearms and Violence. The sponsor is seeking applications for research and evaluation on firearms and violence. This program furthers the Departments mission by sponsoring research to provide objective, independent knowledge and tools to meet the challenges of crime and justice, particularly at the State and local levels. Due: 06/03/2014. Link: https://ncjrs.gov/pdffiles1/nij/sl001085.pdf

National Institute of Mental Health/NIH/NIH: RFA-MH-15-300--Exploratory Clinical Trials of Novel Interventions for Mental Disorders. National Institute of Mental Health (NIMH) invites applications for the efficient pilot testing of novel interventions for mental disorders in adults and children through an experimental therapeutics approach. Under this FOA, trials must be designed so that results, whether positive or negative, will provide information of high scientific utility and will support go/no-go-decisions about further development or testing of the intervention. Studies of novel interventions include, but are not limited to behavioral, pharmacological, biologics-based, cognitive, device-based, interpersonal, physiological, or combined approaches. Support will be provided for up to two years (R21 phase) for preliminary milestone-driven testing and validating of the interventions mechanism of action, possibly followed by up to 3 years of support (R33 phase) for studies relating the mechanism to functional or clinical effects. Ultimately, this R21/R33 funding mechanism is intended to speed the translation of emerging basic science findings of mechanisms and processes underlying mental disorders into novel interventions that can be efficiently tested for their promise in restoring function and reducing symptoms for those living with mental disorders. This FOA will use the NIH R21/R33 Phased Innovation Award mechanism. Due: 06/17/2014; 10/17/2014; 02/17/2015. Link: http://grants1.nih.gov/grants/guide/rfa-files/RFA-MH-15-300.html
Arthur Vining Davis Foundation: Secondary Education Program. The Arthur Vining Davis Foundations supports innovative professional development programs that strengthen high school teachers and their teaching. Proposals may describe a wide range of initiatives, including projects that improve professional development for in-service and pre-service teachers, strengthen teaching skills, support practical research in high school education, and/or encourage the innovative use of technology and new techniques for presentation of classroom materials. Projects should aim to develop solutions with potential for wide application or replication by others. Requests for support from well-established programs should be for initiatives with the potential to improve the program significantly. Special consideration will be given to projects in their early stages that address the concerns and problems of secondary education on a national level. In considering proposals to support high school teaching, sustained partnerships between the faculties of colleges (e.g., arts and sciences and education) and school districts, or collaborative efforts involving reform organizations, colleges/universities, and high schools are encouraged. Due: 04/01/2014; 11/01/2014. Link: http://www.avdf.org/FoundationsPrograms/SecondaryEducation.aspx

Science, Technology, Engineering, & Mathematics

National Science Foundation/Department of Homeland Security/U.S. Department of Transportation: Cyber-Physical Systems (CPS). The goal of the CPS program is to develop the core system science needed to engineer complex cyber-physical systems upon which people can depend with high confidence. The program aims to foster a research community committed to advancing research and education in CPS and to transitioning CPS science and technology into engineering practice. By abstracting from the particulars of specific systems and application domains, the CPS program seeks to reveal cross-cutting fundamental scientific and engineering principles that underpin the integration of cyber and physical elements across all application sectors. To expedite and accelerate the realization of cyber-physical systems in a wide range of applications, the CPS program also supports the development of methods, tools, and hardware and software components based upon these cross-cutting principles, along with validation of the principles via prototypes and test beds. Due: 06/02/2014; 12/15/2014. Link: http://www.nsf.gov/pubs/2014/nsf14542/nsf14542.htm?WT.mc_id=USNSF_25&WT.mc_ev=click

Harvey (Guy) Ocean Foundation: Research Grants. The Guy Harvey Ocean Foundation funds scientific research aimed at the conservation of marine wildlife, primarily large, pelagic fish like sharks, billfish, and tuna. Due: N/A. Link: https://www.guyharvey.com/research/

Entertainment Software Association (ESA) Foundation: Grant Program. The ESA Foundation is dedicated to supporting programs that make a difference in the lives of America's youth. The Foundation seeks to harness the collective power of the interactive entertainment industry to create positive social impact in communities. Due: 05/28/2014. Link: http://www.esafoundation.org/ESAFoundationGrantApplication2014.pdf

**Department of Commerce:** *FY 2014 Coastal Resilience Networks.* The purpose of this notice is to solicit grant proposals from eligible organizations to implement activities that enhance resilience of coastal communities to natural hazard and climate risks through a local, regional, or national network. Proposals submitted in response to this announcement shall provide beneficial public outcomes for coastal communities related to addressing existing and future risks to the natural environment, infrastructure, local economies, and vulnerable populations. Proposals must also leverage, enhance, or create a human or technical network in which one or more coastal hazard issues can be addressed through partnerships to enhance communication, cooperation, coordination, and/or collaboration. Partnerships must include a range of partners from various institutions, disciplines, and sectors at the local, state, and federal level. Eligible funding applicants are: regional authorities, nonprofit and for-profit organizations, institutions of higher education, and state, territorial, and county/local governments. The funding applicants must conduct projects in one or more of the following three U.S. regions: the U.S. Flag Pacific Islands (Hawaii, American Samoa, Guam, Commonwealth of the Northern Mariana Islands), Gulf of Mexico Coast (Alabama, Gulf Coast of Florida, Louisiana, Mississippi, and Texas) and West Coast (California, Oregon, and Washington). Due: 04/11/2014. Link: [http://www.grants.gov/web/grants/view-opportunity.html?oppId=252013](http://www.grants.gov/web/grants/view-opportunity.html?oppId=252013)
