As you are aware, the Board of Regents Support Fund (BoRSF) staff will be conducting six meetings in late August/early September to provide a brief overview of Support Fund and meet one-on-one with faculty, staff, administrators, and others. Meetings will consist of a 30-minute overview of the Support Fund and opportunities for general questions in a group setting, followed by one-on-one sessions with staff.

Anyone interested in meeting individually with a program manager should sign up for a time at <https://web.laregents.org/borsf-regional-meetings/>. Dates, times, and locations for all meetings are listed below (links to campus maps are at the bottom of this email and on the scheduling page). Please distribute this information to anyone on campus you think might be interested; note that any individual – potential or past applicants, sponsored programs/contract staff, fiscal agents, foundation and development officers, etc. – is welcome to schedule a session.

We will accept walk-ins for one-on-one sessions, but only if slots are unclaimed and only during the time frame noted above. Because of the tight schedule, we are not able to stay late or arrive early. To be certain of the opportunity to speak with the appropriate program manager, individuals should schedule a slot. Please inform interested individuals, as well, that if they are unable to attend a regional session, program managers will be available to speak with them by phone or email throughout the Q&A period.

Since individual Q&A sessions are brief, we strongly advise individuals to familiarize themselves with relevant BoRSF RFPs prior to the session to avoid spending time gathering basic knowledge or recapping published information. RFPs, policies, and forms are available on our website: https://web.laregents.org/downloads_page/rfps-policies-forms/.

The BoRSF staff looks forward to meeting with faculty and staff across the state and hopes this new approach will be helpful to faculty and staff. If you have questions before the meetings, please contact the appropriate program manager or me.

Sincerely,
Carrie Robison
